

Over Martinez

Sr. Frontend Developer

+34 697 53 55 06 • contact@overmartinez.com • www.overmartinez.com • Spain

Career Summary

Senior Frontend Developer with 10+ years of experience building scalable web applications using React, TypeScript, and Next.js. Proven track record delivering production-ready SaaS platforms and enterprise-grade systems. Strong background in frontend architecture, testing, accessibility, and backend development with Node.js and NestJS. Actively integrates AI-augmented development practices — leveraging AI agents and code generation tools to accelerate delivery while maintaining architectural quality. Known for leadership, adherence to best practices, and adaptability in agile environments.

Technical Skills

- **Frontend** React · JavaScript · TypeScript · Next.js · TailwindCSS · Zustand · TanStack Query · React Router · Zod · Headless Components · Accessibility · HeroUI · MUI · Ant Design
- **Architecture** Hexagonal Architecture · DDD (Domain-Driven Design) · Feature-based · Component-based
- **Backend** Node.js · NestJS · Express · MongoDB · PostgreSQL · MySQL · SQL/NoSQL · REST APIs
- **Testing** Playwright · Jest · React Testing Library · Mocha · Chai
- **Tools** Git · CI/CD · Storybook · Vite · Semantic Release · Scrum/Agile · Jira
- **AI-Augmented Development** Claude Code · AI Agents & Custom Skills · Prompt Engineering · AI-assisted architecture decisions · Token-optimized workflows
- **Languages** Spanish · English

Career History

Freelance FullStack Engineer | Remote

Jan 2020 – Present

Built and delivered production-ready web applications for multiple clients, leading frontend architecture and development end-to-end.

Operates with an AI-augmented development workflow — using AI agents with custom skills and optimized prompting strategies to accelerate architecture decisions, code generation, and quality assurance without compromising engineering standards.

- **Firmare** (2025 – Present)
Technology consulting — advising on software architecture, development tooling, and technical strategy to support the company's digital products.
- **Lenosoft** (2021 – Present)
Designed and built from scratch a SaaS platform for digital document management and e-signatures, including dynamic template editing, mass contract generation, identity-verified digital signatures, and multi-role document tracking.
Stack: React, Next.js, Zustand, Tailwind CSS, NestJS, MongoDB
- **Blixter** (2020 – 2021)
Led the frontend development of a Business Process Management platform for Claro (one of Latin America's largest telecom operators).
Stack: Angular 8, NestJS, MongoDB

Globant | Santiago, Chile

Oct 2023 – Sep 2025

Sr. Web UI Developer — NBCUniversal

- Led frontend development and defined the project's overall frontend architecture.
- Selected and standardized the technology stack based on project requirements.

- Built reusable common components and published them to the project's Storybook.
- Implemented end-to-end testing with Playwright and enforced code quality standards.
- Worked in an Agile/Scrum team environment.

Stack: Vite, React, TypeScript, TailwindCSS, Storybook, Playwright Test, TanStack Query, Axios, Zod, Semantic Release, among others

Globant | Santiago, Chile

Jul 2022 – Sep 2023

Sr. Web UI Developer — OneSpan

- Contributed to the development of a mobile application security system.
- Implemented end-to-end and unit tests.
- Worked in an Agile/Scrum team environment.

Stack: React, React Router, Material-UI, TanStack Query, TypeScript, Playwright, React Testing Library

Taneq SPA (uPlanner) | Santiago, Chile

Dec 2016 – May 2022

Software Engineer — Jun 2018 – May 2022

- Developed and maintained features across three core products: uPlanning, uAssessment, and Student Success
- Built REST APIs with Node.js and NestJS.
- Drove and executed the migration from AngularJS to Vue.js with Nuxt and TypeScript.
- Developed an Android application using Kotlin (7 months).
- Wrote unit tests using Mocha and Chai.
- Actively participated in all Scrum ceremonies.

Stack: JavaScript, Node.js, Express, NestJS, AngularJS, Vue.js, Nuxt, TypeScript, Kotlin, Mocha, Chai

Frontend Developer — Dec 2016 – Jun 2018

- Built UI components and features across three core products: uPlanning, uAssessment, and Student Success using AngularJS.
- Participated in Scrum ceremonies and agile delivery processes.
- Wrote e2e tests using Cypress.

Stack: JavaScript, AngularJS, Cypress

Education

Instituto Universitario de Tecnología de Maracaibo

Apr 2014

Associate Degree in Computer Science (T.S.U. Informática) — Maracaibo, Venezuela
